## LOCAL HAPPENINGS.

Peto's Magic Corn Cure is an infallible remedy.

Peto's Toothache drops, will cure aching teeth instantaneously.

Climax chewing tobacco only 50 cents a plug at the Willows cigar store.

The Charleston smelter has closed down, it is to be hoped temporarily.

Horses taken to pasture by G. W. Trull, at the Boston Mill Ranch, for \$3 per month.

Rev. G. H. Adams will conduct the services at the Methodist Church tomorrow.

Mrs. Dawley, of Phenix, is visiting the family of her brother, Mr. H. K. Tweed.

Peto's Carbolic Salve is the greatest remedy ever discovered for curing cuts, sores and bruises.

During the past week Tombstone has been visited by not less than half-a-dozen slight shocks of earthquake.

Hon. M. A. Smith, our delegate to Congress, returned from the east on Thursday, accompanied by his wife.

Managing Director Cheyney, of the Tombstone Mill and Mining company, arrived from the east on Thursday.

Mrs. C. H. Arnold and children are expected home next week. They have been spending the summer in San Jose.

The Ladies' Aid Society of the M. E. Church, will meet next Thursday afternoon at 2 o'clock at the residence of Mrs. G. S. Bradshaw.

Peto's Toilet Cologne is manufactured by him from French Pomade, and is as fine as the imported article. It is sold for less than half the cost.

Stick to your home merchants, who have stood by you in the dark hours, and don't send your money away from home or patronize "fly-by-night" concerns that are liable to swindle you.

Sheriff Shaw, of Pima county, is lying close to death's door, at his old home in Faison N. C. He has glandular trouble, and his physicians say he cannot live more than five or six weeks.

At the picnic on Wednesday quite a number of dishes were taken by mistake and others left in their place. The ladies having the affair in charge desire all those who have made such mistakes to call at the residence of Mr. Eccleston and rectify the same.

At its next meeting the Board of Supervisors will be called upon to select some suitable person to succeed Sheriff E. O. Shaw, who, on account of his serious illness, will be compelled to relinquish the office. A majority of the Board being Democrats, of course one of that political faith will be appointed.—Citizen.

Last Monday a train on the Sonora road jumped the track two miles south of Nogales. The engine was badly damaged and the passenger cars were piled on top. A Mexican custom house guard named Jesus Parra, had his leg cut off, while a Mexican boy had both legs cut off. Engineer Grey and his fireman were badly scalded.

The funeral of Katie Hattich, on Sunday last, was one of the largest ever seen in Tombstone. The Sunday school children, Knights of Pythias, Fire Department and a large concourse of citizens were in the procession, and the remains of the dearly beloved little girl, who met with such a sad death, were appropriately interred.

Little Bobby Winders is not a very regular attendant at Sunday school, but when a picnic is announced he is always counted in. Last Wednesday he was on hand as usual, and on the way home his teacher asked him if he had enjoyed himself. The young hopeful replied, "You betcher life; I eat so much I had to unbutton my pants." No trouble about Bobby getting there.

Messrs. Heslep, Collins, Maloney and Southerland were in from the West Huachuca this week. That section is quite the most desirable part of Cochise county, but is very nearly isolated. In coming to the county seat it is necessary to go into Sonora, or around the north end of the mountains, where the roads are almost impassable. Could not Pima and Cochise counties make some arrangement for the formation of road districts whereby the thoroughfare could be improved?

## WEEKLY MINING REPORT.

A trip over the district during the past week convinced an EPITAPH reporter that the mining outlook was never brighter, so far as developments were concerned, although the war on silver being made in the east continued to have a depressing effect. Work on the various properties of the Grand Central company continues with unabated vigor; the usual amount of ore is being sent to the mill, which is kept constantly running. A new hoist is being erected over the Silver Thread and an air-shaft is being sunk. The Grand Central, Emerald, State of Maine, Boss, "87," and other property of this great company are being worked for all they are worth, and generally with favorable results. Good progress is being made on the new shaft house and other buildings at the old workings, and there is a busy hum of activity on every hand.

## OLD GUARD.

Work on this property is being vigorously prosecuted. Three shifts are engaged in enlarging the main shaft, and making the same into two compartments. The mine is developed by three shafts and three levels, and the deepest workings are 266 feet. Sufficient ore is in sight to warrant the erection of the ten-stamp mill which is now being placed on the ground. Foundations are laid for the new shaft house which is to be 110 feet long by 30 feet wide, and the new office building, 52 by 30 feet, while a large force of men are at work upon the grade for the mill. This will only consist of ten stamps at the present, but room will be left for an additional battery in case it is needed. An excellent feature about this property, is the systematic labor-saving appliances being used. The mill is immediately upon the mine, and only a short distance from the main shaft, and hence the ore will require no handling or hauling, but will be dumped on the grizzlies from the car tracks. For the present the works will be supplied by the Huachuca Water Company, but as soon as possible the main shaft will be sunk to the water level and pumps of good capacity put in position, when they will be out of the power of that heartless and grasping monopoly. The contract calls for the completion of the different buildings by the first of October, and it is believed that by November 1st, the stamps will be pounding away on Old Guard ore, and the production of bullion will be under way. The valuable property is owned by the Old Guard Mining Company (limited) of London, and its Superintendent is Mr. Geo. R. Williams, a gentleman who has had thirty-two years experience in mining in England, Chili, Bolivia and the United States.

## LUCKY CUSS.

It has long been known that a large body of good grade ore exists in this, one of the most valuable properties of the Tombstone Mill and Mining Company, but the manner in which it was developed required the ore and waste to be windlassed twice before reaching the surface, thus making it too expensive altogether. After looking over the ground the managing director, W. J. Cheyney, who arrived this week from Philadelphia, has decided to start a new double-compartment shaft, over which hoisting works will be erected, the work to begin immediately.

## OMEGA.

The main shaft is down 100 feet, where a station is being cut out, in opening which a vein 8 1/2 feet in width was developed. Sinking will be continued the coming week. The new shaft near the office is down 32 feet on an incline.

## BUNKER HILL.

Surveys were made this week for a connection between the third and fourth levels. The drift on the 400 continues and the connection will be made the coming week. The drift on the 200 is in the Mammoth ground.

## MAMIE.

Rumor has it that the lessees of this mine have for the past two or three months been taking out quite a large quantity of ore that goes a thousand dollars a ton, and that they are making at the rate of \$500 per week per man. It is to be hoped the news is true.

## MAYFLOWER.

The lessees of this property have got into a good body of rich ore, and are making it pay.

## TRUE BLUE.

A rich strike is reported in the True Blue, owned by A. H. Stebbins. The particulars could not be learned, as the owner is reticent.

## BISBEE.

The Copper Queen smelters shut down the first of the week on account of bad roads and lack of coke, but started up again on Friday with two stacks. This is one of the best copper properties in the world, and keeps two years supply of ore constantly in sight.

The Silver Bear has closed down temporarily. The lessee, H. B. Maxson, is furnishing ore from this mine to the Copper Queen on contract.

The Prince is also closed down temporarily on account of litigation.

## HARSHAW.

Recent advices from the Patagonias report mining matters in Harshaw and Washington Camp as picking up. Regular shipments of ore are being made to the smelters, and chlorides wear happy faces.

Lake & Co. have been working the old French mine near Harshaw for the past two years, and have shipped a good many hundreds of tons of ore with prof-

table results. At present they are employing twenty men.

Farrell & Co., of Harshaw, are working the American mine under a lease, and are making money. They expended about \$1200 in prospecting before they struck pay ore, but now the mine is on a paying basis and gives employment to twenty men.

## OTHER CAMPS.

The Santa Fe mine, situated on the east side of the Manzanal mountains, in Sonora, is at present attracting considerable attention. The property is principally owned by Mexican officials, and is being worked under lease by Messrs. W. C. Green and Floyd McMahon. The vein is in porphyry and the ore is in pockets and wonderfully rich, being native silver and sulphide. Chas. Holbrook was interested in the lease, but sold out to Floyd McMahon after one of the pockets was exhausted, but since that time two larger and richer pockets were discovered, and the property is said to be looking better than ever. The lessees are shipping to the Selby smelter in San Francisco, and the ore is said to net over 350 ounces per ton.

There was a batch of silver ore weighing less than 500 pounds sold at the Tucson sampling works last week for nearly \$1,200. The ore came from near Globe and indicates a rich vein in that vicinity.

Placer mining in the Santa Rita range, near Greaterville, is having a howling boom. From the late heavy rains the water shed dams are full and miners are working the deposits of metal in the gravel for all its worth. It is estimated by a gentleman who came in from there yesterday that there are at least 300 men engaged in working for gold. For years at intervals have the placers paid. At one time there were several parties who took out small fortunes from them. There is a mother vein in the vicinity that feeds the placers and whose ever finds it will strike a Comstock. Mr. Bartolo Barcelo, who has been placer mining near Greaterville with a partner has taken out over \$750 in the past three months.—Star.

## A Mistake in the Count.

On Wednesday of last week, Martin Costello, who is an extensive dealer in beer and county warrants, presented evidences of indebtedness to the County Treasurer, and received the cash therefor. The Treasurer claims that he overpaid him \$1003, and has brought suit for the amount. Mr. Ritter explains the matter in this way: He was calling off the warrants, and his deputy, Mr. Ludlow, was taking down the amounts. The latter put down \$125.55 in one case when he should have put down \$123.55; and in the other instance he put down \$110, when he should have made it \$110. The amount paid Costello should have been \$3139.40, but it is claimed that he received \$4142.40. The mistake was not discovered until next day when a demand was made for the return of the money. The EPITAPH has not heard Costello's side of the story, but he evidently denies that he received the money or he would return it.

## Our Schools.

Vacation has ended, and the schools throughout the county will open on Monday next.

In the Tombstone schools, Prof. George A. Metcalf retains his position as principal, assisted by Miss Herring, Miss Bootes, Miss Hart and Miss Hennessey. Miss May Ellsworth takes charge of the Fairbank school.

Miss Gertie Howe will teach in Charleston.

Mrs. B. J. McGrew will preside over the destinies of the young ideas of Con-tention.

Miss Ewalt goes to Dr. Pool's ranch on the Lower San Pedro.

## The Sunday-School Picnic.

The children of the Methodist Sunday-school and their relatives and friends, to the number of nearly two hundred, repaired to the ranch of Mr. H. C. Herrick, on Wednesday afternoon, and had a most enjoyable time. All sorts of vehicles were brought into requisition for conveying the crowd, and all were accommodated with comfort. The memorable hay wagon of Major Thomas, which once did duty on an Indian raid, carried about forty of the little ones to and fro, while Arnold's buckskin, Jay-Ee-See, performed his full share of the work. Others kindly furnished teams for the little folks, and everything possible was done to add to the success of the occasion. At the grounds there were swings, croquet and bean games and other schemes for enjoyment. A bountiful repast was spread, and all went away fully satisfied about 8 o'clock. Thanks are due to Mr. and Mrs. Herrick, who kindly loaned their house and grounds, for the pleasures enjoyed by all in attendance.

## Card of Thanks.

We wish to return our most heartfelt thanks to the kind friends who comforted and assisted us in the sad hours of our bereavement; to those who brought the beautiful flowers which covered our dear daughter's casket; to the Sunday school, the Fire Department, Knights of Pythias and all others who attended the funeral, thereby showing their sympathy.

MR. AND MRS. B. HATTICH.

A letter from St. Johns, Arizona, to a gentleman of this place, speaks of rustlers who rendezvous on Canyon creek, as being wanted by Territorial officers for repeated infraction of law. J. D. Hauck, deputy sheriff, and a posse of fifty men have gone from the western part of

Apache county in quest of them. The letter also says the writer is in daily expectation to hear of killing in the Blivins and Co-per neighborhood.—Silver Belt.

## Whereabouts of Old Tombstoners.

O. O. Trantum, formerly City Attorney, has made a fortune of \$150,000 in Los Angeles real estate speculations.

Philip Morse struck San Diego at the right time, and is now said to be worth a quarter of a million, made in lumber and real estate.

A. J. Preston, whose wife kept a boarding house in this city, owns a large sash and door factory in San Diego and has made a great deal of money.

Theodore Brown bought a piece of land near Los Angeles a couple of years ago for \$1,300, and has just sold it for \$15,000.

Dick Shaw, formerly connected with the EPITAPH, is said to have made fifteen or twenty thousand dollars in Los Angeles real estate.

Johnny Caley has a fine saloon in Los Angeles and is doing well.

J. C. Fitzhenry is doing a thriving boot and shoe business in Pasadena. Capt. W. H. Seamans has developed into a Los Angeles capitalist, and Dame Rumor says he is about to marry a rich widow.

Frank Smith, a graduate from the EPITAPH office, has recently started a paper in Ventura, which gives evidence of prosperity.

Harry Brook, also formerly connected with the EPITAPH, is editor and part proprietor of the Pacific Fruit Grower, published in Los Angeles.

Fred Beau de Zart and J. M. Brace well are successfully conducting the Commercial Bulletin in Los Angeles.

George Parsons is knocking around Los Angeles, and is making a few dollars.

Maurice Clark is proprietor of the Hotel Belmont, the finest hotel in the neighborhood of Los Angeles.

Frank Prescott and wife are in Los Angeles.

Patrick Bracken is superintending a mine in Mono county, Cal., owned by Haggin & Tevis.

G. Gordon Adam is educating the Los Angeles bar up to the true standard of practicing law. Judge Mitchell and Judge Fitzgerald are also practicing their profession in the same place.

Clark, of Clarksburg, has made a great deal of money in San Diego real estate.

The attaches of Hudson's Bank are scattered to the four winds. The proprietor is in England; M. B. Clapp is in San Francisco, conducting an abstract insurance office; James Eccleston is in a railroad office in Denver; Bob Kenny is in Los Angeles, and Smith, oh where is he?

## Monday Morning.

Next Mr. Gregory will open his new restaurant in the Ritter building, on Allen street. All are invited to come and partake of a genuine home cooked breakfast. Prices as usual.

The Uniform Rank Knights of Pythias gave a very enjoyable dancing party at Mining Exchange hall last Tuesday evening to their friends.

The Towne Smelter, in El Paso, which consists of four stacks, was blown out this week, and is now in full blast. It is a big establishment, and by fair treatment will receive considerable patronage from this section.

We are now prepared to draw drafts direct, issue letters of credit, and transfer money by mail, and cable, on all points of Europe, Asia, Africa and Australia.

R. W. WOOD,

Cashier

Bank of Tombstone

## LETTER LIST.

Pure Drugs and Chemicals, Homeopathic Medicines.

Assayers Materials. Household Receipts Promptly and Carefully Filled. Particular Attention Given to

Compounding Prescriptions Day and Night.

## Quarantine Proclamation

TERRITORY OF ARIZONA, EXECUTIVE DEPARTMENT, OFFICE OF THE GOVERNOR.

Whereas, the Live Stock Sanitary Commission of the Territory have officially certified that they have reason to believe that conditions have existed and continue to exist which render animals of the bovine species from the continent of Europe and the Republic of Mexico liable to convey disease, and request a quarantine to be established against said localities.

Now, therefore, I, C. Meyer Zulick, Governor of the Territory of Arizona, by virtue of the authority of law in me vested, do hereby order, establish and declare a Quarantine, to take effect immediately, against the Continent of Europe and the Republic of Mexico, on all bovine cattle from said localities coming into the Territory of Arizona, unless they are quarantined at the ports of entry prescribed by the Rules and Regulations of the Live Stock Sanitary Commission of Arizona, for a period of NINETEEN DAYS, and retained there until they shall receive a certificate of health signed by the Veterinary Surgeon of the Territory of Arizona, or some duly authorized deputy under him.

In testimony whereof, I have hereunto set my hand and caused the Great Seal of the Territory to be hereto affixed.

(SEAL) Done at Prescott, the Capital, this Eighteenth day of August, A. D. 1887. C. MEYER ZULICK.

By the Governor: JAS. A. BAYARD.

Secretary of the Territory.

Leave your orders with Joe Brown for any book, paper or magazine wanted. Publications in Spanish, French, etc., furnished on short notice.

Wolcott buys and sells for cash and hence cannot be undersold.

## Sheriff's Sale.

BY VIRTUE OF AN EXECUTION issued out of the District Court of the First Judicial District, in and for the County of Cochise, Territory of Arizona, to me directed and delivered, on a judgment rendered in said court on the 23d day of March, 1886, in favor of E. F. White and against A. T. Jones, wherein I am commanded to make the sum of \$234.58 damages, with interest thereon from date of judgment at the rate of ten per cent
